COAL.-We were informed yesterday by one of our coal merchants that forty-eight boat loads had arrived safely over the falls of the river and would, burring accidents, arrive here during the week.

For the Patriot. MESSES. Epirons: As I have had a little to

do in the land office, have spent a part of the last twenty years in the new States, seeing and hearing a part of what was going on, and have some children, I will make a few remarks about the policy of giving away so much of the public land, for you, Governor Johnson, and others to think about.

First, I think by giving 160 acres of land, or preëmption titles for it, to persons for settling or squatting on it, tempts the speculators and others, to form what they call emigrant societies, that has and will hunt for men that will change their residence or name for \$40, or 40 acres of land. If we would reduce the quantity to 40, in the place of 160 acres, it would cut off much of the temptation from the speculators, and the poor men that would work the land, would be more likely to get homes, I think, for the speculators would have to be at the same trouble and expense to get the preëmption title for 40 acres as for 160

Second, A family can make a living on 40 acres, and take a start in the world if they will try, for many leave not the half of it, and from history we learn the family that produced the great and good Dr. Franklin, had lived over 300 years on 30 acres of land.

Third, From the way the public lands has been going, and the people from all quarters of the world is flowing to it, it wont be a great while before our grand children cannot get 40 acres a piece that will be fit for cultivation; for I suppose over four-fifths of what we have left, is unfit for cultivation.

Fourth, I think it nawise and dangerous, for a nation to hold out temptation at home and abroad, for corruption and fraud, and a policy that might be wise and good for a family or nation at one time, might be unwise at another time. Gentlemen, I think the time is come, for us

to begin to think about saving some of the land, or stop making so many children, and as you and the Governor is trying to control the things of this nation, I think you, him, and some others, would do well to travel as much as I do, to see and learn how things are

And as I voted for the Governor, I will thank him to be very cautious, and to think of what he has done and said, and how it is operating, for when big things get a start down hill, it is hard to stop them, or tell where they will land, or the damage they may do, to both great and small, by running over all; as such I hope those that have the control of big things, will act comely and wisely, so as to protect the interest of all.

If the Democratic party will not protect me, my property, country and children, better than has been done, by the will of God, I will try to get others to help me to do it, regardless of the demagogues or the way the wind may blow. Yours, very respectfully, March 15, 1856. S. W. ADKISSON.

PRACTICAL ADVICE TO LABORS - The first symptoms of disease should never be disregarded. If not removed, serious cylls will inevitably follow, and in seeking as Harper's Magazine, sistance all remedies that will act violently or reduce. The Atlantic Monthly, the strength should be avoided. They, instead of assisting nature, weaken and debilitate those organs. For Female Complaints, take McLean's Strengthening CORDIAL AND BLOOD PURIFICIA. It stands pre-eminent in all diseases peculiar to females. Try it; it is a delicious aromatic Cordial.

Great American Corn Sheller.

The Proprietor of this great labor saving machine, who is temporarily in Nashville, respectfully invites a call from the Agriculturists and Mechanics of Davidson county ,-preferring a trial and thorough examination of the machine to any description of its performance that he might give. A leading feature of this sheller is its simplicity, a thing, which of itself, recommends it above all others. It is plain, simple and substantial in construction, not liable to get out of order, and will shell, in the hands of one person, in a perfect manner, without breaking a cob, or leaving a single grain upon them, (what no other sheller in the coun try will do,) twenty bushels of corn per hour. The Proprietor is prepared to dispose of State or County Rights or single machines, on the most reasonable terms; and, in consequence of the unprecedented "hard times," will exchange the same for land, horses, mules, or any kind of grain or farming produce at

The Rights for all the Southern States are for sale and can be had reasonably low. Price of single Ma Planter's Northern Bride; By Caroline Lee Hentz chines \$12 and \$16. The river was receding slowly yesterday with water sufficient on the shoals for the largest class of our steamers. We noticed the arrival yesterday of a num-

ber of coal boats from up the river.

SINKING OF THE PRINCESS .- By dispatch we learn this steamer sunk (by collision with the Great Western,) on Sunday night last, a few miles above Shawneetown and opposite Raleigh, Ky. We regret exceedingly to have to record this sad accident to the Princess-her principal owner and veteran commander. Capt. Arken, one the most attentive and enterprising gentlemen on our river, is, in this instance, in a pecuniary point of view, the greatest sufferer. He was doing well with his steamer, and applying all of his surplus funds to the liquidation of debts not only created in her building, but in payment of debts of the ill-fated Albertine that was sunk by ice at Cincinnati. We trust the same will and energy, combined with "strong arms and a stout heart" that brought into being the Princess, will again be put forth, and sustained by our noble and praisworthy merchants, and Phoenix like, Capt. AIKEN may be himself. again with a craft "more noble than them all." To Mr. WILLS, the clerk of the Princess, we are
